OBJECTIVE

With a job that always hones my professional skills through online courses and through the projects of the lecturers at the school, I always try to improve myself by trying. Furthermore, I want to use my core skills and gain knowledge to contribute to the company as a user interface developer.

EDUCATION

University Of Science

2020 - Now

BACHELOR OF INFORMATION TECHNOLOGY

Learning environment with a lot of competition, but I am strict with myself to develop comprehensively

PERSONAL PROJECTS

GRAB INTERFACE SIMULATION PROJECT

02/2023 - 01/2023

Your team size: 4

FULLSTACK DEVELOPER

PROJECT DESCRIPTION:
This website is E-commerce website. It was required creating an interface suitable for the data of the topic in the Advanced Database subject (focusing on SQL statements built with millions of records).

TECHNOLOGY USED:

ReactJs, NodeJs, ExpressJs, Microsoft SQL Server
Link demo: https://me-food-ui.vercel.app/
Link source code: https://github.com/datmap233/me-food-ui

NTSHOP

07/2022 - 08/2022
